MEMORANDUM

TO: Mayor Williams, Members of City Council

FROM: Donald C. Kleppe, Project Manager *DK*

DATE: December 6, 2013

RE: **SKATEPARK IMAGES AND CONCEPTS**

Please find attached the master plan design and layout images for the skatepark for David W. Harris Riverfront Park. The following is a update as to where the project stands. As follows:

- Design and engineering team of AECOM, Inc./Team Pain have completed the master plan and layout.
- The 50% engineering drawings for Phase 1 have been submitted and comments from stakeholders regarding said drawings have been returned to AECOM who is in the process of creating the 90% drawings and materials list.
- Phase 1 funding is 92% complete. (CDBG+LWCF)
- An authorizing resolution to apply for additional LWCF funding for Phase 2 construction will be before City Council at the next City Council meeting. *Deadline of 12/30/2013 for submission of applications to West Virginia Development Office.*
- Additional funding requests for Phases 2 are being developed.

Until the project is let for bid we are working off preliminary cost estimates provided by AECOM. Working strongly to be turning dirt for Phase Spring/Summer 2014.

Tall, dense groundcover or shrubs for slope stabilization and pedestrian restriction

Access road to parking area
 Opening in Flood Wall as per USACE Harris Riverfront Park Masterplan, 2011.
